मनुष्य के जीवन में लक्ष्य का होना बहुत आवश्यक है। लक्ष्य के अभाव में उसर जीवन दिशाहीन तथा व्यर्थ होता है। इस बात को हम एक उदाहरण द्वारा भलीभाँति समझ सकते हैं- एक बार एक दिशाहीन युवक महात्मा जी की कुटिया के पास रुक तथा महात्मा जी के पास जाकर बोला, "यह रास्ता कहाँ जा रहा है?" महात्मा जी ने उससे पूछा, "तुम कहाँ जाना चाहते हो?" युवक ने उत्तर दिया कि वह नहीं जानता। कि उसे कहाँ जाना है। तब महात्मा जी ने कहा "जब तुम्हें पता ही नहीं है कि तुम्हें कहाँ जाना है तो यह रास्ता कहीं भी जाए इससे तुम्हें क्या फर्क पड़ेगा?" इस संवाद का आशय यह है कि जीवन में हम बिना लक्ष्य के इधर-उधर भटकते रहेंगे और कुछ भी प्राप्त करना हमारे लिए असंभव होगा इसलिए सबसे पहले हमें अपना एक लक्ष्य बनाना चाहिए तथा आत्मविश्वास व धैर्य के साथ उसे पूरा करने के लिए निरंतर प्रयास करना चाहिए, तभी हम सफलता प्राप्त कर सकते हैं। हमारे देश में ऐसे अनेक महान व्यक्तियों का जन्म हुआ है जिन्होंने विपरीत परिस्थितियाँ होने पर भी अपने

लक्ष्य को पूरा करने के साथ-साथ सपूर्ण विश्व में भारत को गौरवान्वित किया है। इनमें डॉ. राजेद्र प्रसाद डॉ. ए.पी.जे. अब्दुल कलाम आदि शामिल हैं।

मनुष्यों को बड़ा बनने के लिए विशाल काम करने की जरूरत नहीं होती बल्कि प्रत्यर काम में विशालता के चिह्न खोजने पड़ते हैं। अपने अंतर्मन में सदैव जिज्ञासा को जन्म देना होता है। दुनिया में ज्ञान का जो बोलबाला है उसमें हमारे कौतूहल की केंद्रीय भूमिका है। अल्बर्ट आइंस्टीन ने एक बार अपने साक्षात्कार में कहा था कि हमारी जिज्ञासा ही हमारे अस्तित्व का आधार है। बिना प्रश्न के हमारे जीवन में ना गति आएगी और ना कोई रस होगा। जब हम चिंतन करते हैं तब नई बातें

सामने आती हैं। सवाल करने का ही परिणाम है कि नई तकनीक 'ऑटोमेशन' और 'आर्टिफिशियल इंटेलिजेंस' जैसी चीजें आज दुनिया में आ रही हैं। जब हम कहते हैं क्यों कैसे, क्या, तब हमारे अंदर की स्नायु प्राण ऊर्जा और संकल्प एक नई गति और उत्साह के साथ नवीनता की यात्रा करने लगते हैं। हमें इस दुनिया की इतनी आदत पड़ चुकी है कि लीक से हटकर सोचना नहीं चाहते। कोई विभिन्नता नहीं ना ही कोई नवीनता है। यह कैसा जीवन है। जिसमें कोई कौतूहल नहीं कोई आश्चर्य नहीं है? इस जगत में हमारी स्थिति एककीटाणु या विषाणु की तरह है जो अपनी सुखमयी व्यवस्था में पड़े रहते हैं। वे हृदय की आवाज सुनते हैं। जो बड़ा होना चाहते हैं। इस दुनिया और इसकी प्रत्येक घटना वस्तु एव स्थिति पर अपना आश्चर्य प्रकट करते हैं। प्रत्येक घटना और वस्तु से परे हटकर सोचने और उसको देखने की कोशिश जो करते हैं वही बड़ा बनते हैं। जिज्ञासु मन और बुद्धि ही दर्शन और विज्ञान की दुनिया बनाते हैं।

(i) प्रत्येक काम में विशालता के चिह्न खोजने से लेखक का क्या अभिप्राय है - (1)

(क) बड़ी सोच व्यक्ति का बड़ा बनने की प्रेरणा देती है

(ग) अतर्मन में सदैव जिज्ञासा(घ) दर्शन और विज्ञान की दुनिया

(iii) जिज्ञासा ही हमारे अस्तित्व के आधार की परिचालक है क्योंकि यह-

(क) व्यक्ति को नए जमाने का वैज्ञानिक दर्शाती है।

(ख) व्यक्ति को शारीरिक व मानसिक रूप से क्रियाशील रखती है।

(ग) आर्टिफिशियल इंटेलिजेंस की उपयोगिता दर्शाती है।

- 3. Read each questions carefully and follow the instructions.**

Section – A (READING – 20 MARKS)

1. Read the following passage carefully. (8)

While most track and field events largely culminate into feats that need bursts of energy to perform, race walking stands out as a sport that prioritises precision and discipline.

Race walking is believed to have originated in the Victorian era (1837-1901) when noblemen used to bet on their footmen -- who walked alongside their employer's horse-driven coaches -- for a winner.

It came to be known as pedestrianism and made its way to the United States in the late 19th century.

It caught on as a spectacle sport, with participants walking nearly 1,000 kms in six days inside packed indoor arenas. The name of the sport itself defines the objective where participants swiftly walk their way to the finish line. However, it is bound by strict rules pertaining to its technique.

Race walking differs from running, where an athlete often has both feet off the ground during their strides in a sprint. In race walking, however, athletes must always have one foot in contact with the ground at all times, as visible to the human eye. Furthermore, the athlete's knee of their advanced leg must not bend and the leg must straighten as the body passes over it. Each race walker is judged carefully and can be penalised if he bends his knee during the race. Judges ranging from five to nine, depending on the category of the event, inspect the race with their naked eyes. They carry paddles with symbols for 'loss of contact' (~) and 'bent knee' (<). If a race walker is shown three warnings (paddles) from different judges, including the chief judge, it leads to disqualification of the athlete. A red paddle is shown to the disqualified athlete. The standard distances for race walking events are 3000m, 5000m in indoor tournaments while 5000m, 10,000m, 20,000m, and 50,000m races are held on outdoor tracks. The 10km, 20km and 50km events, labelled separately, are held on metalled roads.

- 1.1 On the basis of your understanding of the above passage, answer the following questions:
- a) Race walking stands out as a sport than other field events. Why?
 - b) Mention the origin of Race walking?
 - c) Race walking differs from running. How?
 - d) What can be the reason for the penalization of a race walker?

2. Read the passage given below and answer the questions that follow:
1. Music is perhaps the most popular and widely practised form of Fine Arts, transcending all kinds of cultural and linguistic barriers. Any form of fine art is difficult to master and almost impossible to perfect and music is no exception.
 2. Nature, it is learnt, has blessed almost two-thirds of the human race with musical ability of some sort. Music has the power to bring out the deepest emotions. It can make one cry or bring a smile on one's face. In fact it is a magic medicine and many seek refuge in it when they are depressed or stressed. It is this intimacy that makes us listen to music or even hum or sing sometimes. This singing, or realistically speaking, expressing one's emotion musically sometimes takes a serious turn. This desire to show musical expression in public then becomes a serious business profession. And from here the musical journey begins.
 3. This desire to sing before an audience is innocent and beautiful and indeed it is perfectly alright to have such a genuine desire. But it is also important to understand that, singing is an intricate art — a highly refined one at that, which requires systematic, prolonged and strict training, to be acceptable. This is an aspect we forget in our keen desire to reach the stage and perform. It is almost like preparing a formal meal for some specially invited guests, without even having learnt and trained in the basics of cooking. This is why we have more noise and less music nowadays.
 4. It is observed that those who have attained the so called partial success, suddenly feel that they lack the required knowledge and are not learned enough. But it is too late by then. It should be understood here that the stage or a performance brings in a different mindset within the artist. It is always recommended and rightly said, that while on stage, cover the mistakes and weaknesses if any, and get along. But the contrary is true when it comes to acquiring knowledge and during the learning process. While under training, the student is expected to make mistakes but then rectify those mistakes under the supervision and guidance of the teacher. Therefore, it is good to make mistakes and then be corrected during the process of learning as this subsequently makes one flawless and educated. This is a different mindset. And these two mindsets discussed above, (those of a performer and that of a student) cannot co-exist.

- 2.1 On the basis of your understanding of the passage, attempt any 12 out of 13 questions given below: **1x12=12**

- a). How can we say that music is magic?
- b) Singing is considered as an intricate art. Why?
- c) How do people get transformed from humming tunes to becoming professional musicians?
- d) What is expected from a stage performer?
- e) What should students learn to do while under training?
- f) The word in Para-2 which means 'the state of being safe or sheltered' is _____.
- g) The synonym of 'exceeding' in Para-1 is.
i) limiting ii) crossing iii) transcending iv) believing

-Read the following statements and choose the correct options for the following questions based on Assertion A and Reason R.

- i) Both A and R are true and R is the correct explanation of A.
- ii) Both A and R are true and R is not correct explanation of A.
